PRESS RELEASE N°010/FCF/SG/2024

It has come to our attention that an alarming amount of false news and unfounded rumours about the Indomitable Lions are circulating on information platforms. These crudely crafted "fake news" stories have the potential to destabilize the national team, its technical staff, and its administrative support staff. In particular, this malicious enterprise has interfered communications regarding the temporary unavailability of Captain Vincent ABOUBAKAR. It is also behind false interviews maliciously attributed to the President of FECAFOOT, Mr. Samuel ETO'O FILS. the latest productions of these disinformation agencies not only invented a quarrel between the manager-selector and the president of the federation, but also an alleged exclusion of several federal personnel from the delegation in Yamoussoukro.

Regarding the latter, FECAFOOT would like to remind the public that it has established a rotation system that allows its staff to physically participate in international competitions, in particular the **CAN TotalEnergies 2023**. The trips will take place in successive waves. the first delegation arrived on January 14 to coincide with our entry into the competition. A second arrived on the 17th for the second match, and a third is planned for the final group match. This rotation will continue depending on the Indomitable Lions' performance in the competition.

Given the risk of misinformation, FECAFOOT urges Indomitable Lions fans to be more vigilant about misleading content and to seek information from the right sources. It calls on users of social networks to contribute, through their goodwill and sense of restraint, to preserving the serenity of our competitors.

Done in Yaounde, on January 16, 2024.

Blaise DJOUNANG

THE GENERAL SECRETARY
